SUMMARY

Computer Information Systems graduate currently training in Full-Stack Web Development at AXSOS Academy. Hands-on experience with Python, Flask, Django, JavaScript, SQL, MySQL, Git, and GitHub through training and projects. Interested in web development, user-friendly interfaces, and backend development, and seeking an internship where I can contribute my current skills while continuing to learn through real-world projects.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python, SQL
Frameworks & Technologies: Flask, Django, Django ORM, Tailwind CSS
Databases: MySQL
Tools: Git, GitHub, VS Code, DevTools
Concepts: Responsive Design, Flexbox, Grid, DOM Manipulation, Object-Oriented Programming (OOP)
Algorithms & Data Structures: Linked Lists, Hash Tables, Stacks & Queues, Recursion, Trees

---

DiaCare – Diabetes Patient Records & Treatment Recommendation System

University Project | HTML, CSS, JavaScript | GitHub.

- Designed a web application to help doctors manage diabetes patient information.
- Built a user-friendly interface for managing patient records and supporting treatment decisions.
- Developed medication compatibility and recommendation features based on patient conditions

---

WORK EXPERIENCE

Social Media & Customer Support Assistant | Fahad Home Store for Household Items – Nablus | **2023 – Present**

- Handle customer orders and inquiries received through the company's website and social media, gaining direct insight into user expectations and website functionality.
- Managed up to 130 orders independently during peak discount seasons while maintaining high accuracy and fast response times.
- Demonstrated quick response rates to customer questions, improving overall satisfaction and repeat usage.

EDUCATION

Axsos Academy | Full-Stack Developer Certificate | Remote **2026**

- A part-time immersive training program in web fundamentals, Python, algorithms, and data structures. The bootcamp includes 20 weeks of programming as follows: +620 coding hours in total: 50 hours pre-boot camp, 120 hours web fundamentals, 240 hours Python, 60 hours of algorithms and data structures, and 60 hours of 2 complete projects (solo & group). All stacks include group activities and LeetCode and HackerRank.

Al-Quds Open University | Bachelor's Degree in Computer Information Systems | **Nablus** **2021-2025**

- **Graduation Project:** "DiaCare – Diabetes Patient Records & Treatment Recommendation System"

TRAINING

- Interactive English Program | Edraak.org 2021-2022.
- Introduction to Python Programming | Edraak.org, 2024.
- Using LinkedIn to Access Career Opportunities | Edraak.org, 2025.

VOLUNTEER WORK

- Volunteered at the orphanage, helped by preparing the food for the kids, cleaning, and organizing their housing.
- Volunteered at the Human Supporters Association; I prepared some documents for the association and helped prepare food for the children.
